Asif Ishtiaque

Deputy Head of Branding & Promotion at HULT PRIZE at BAUET
Bangladesh

Summary

A human brain is a crazy place, two things fascinate me most about
Cyber Security & Business Analysis. In other words, I am a Security
Analyst and Business enthusiast who is highly energetic, outgoing,
and detail-oriented. I am passionate about Network Security,
Pentesting, and Cloud Engineering and also love to solve problems
in creative ways.

I am currently pursuing my B.Sc in Computer Science & Engineering.
One of the biggest challenges as a university student is to manage
time to learn new skills. As a university student, I can learn quickly &
master new concepts and skills.

I can handle multiple responsibilities simultaneously while providing
exceptional customer service. I consider myself to have excellent
leadership skills and multi-tasking strengths. I understand that
teamwork is essential to the success of many jobs and projects,
therefore I have always put my best effort into being a team player
for whatever situation I may be involved in.
